

ADAPTIVE SKILL BUILDING: Photo Request

The New Mexico Department of Health (who funds the ASB program) and The Center for Development and Disability at UNM (who manages the program on behalf of the Department of Health), want to get to know your child over the course of their involvement with the ASB program. Since it may be a while before we meet your child in person, we would love to have a recent picture to add to your son or daughter's file. Additionally, if and when your child's case is assigned to an ASB provider for intervention services, we would like to share a photo with them, in addition to the paperwork you submit as part of the application process.

Affix picture here.

Feel free to share information about your child's photo: How old was he/she? Was it taken on a special occasion? Etc.

Thank you for sharing a picture of your child!
