From the ECO Center:

Please Note:

- When downloading the calculator: begin download, choose "save" and save the file with a new name on your computer. Do NOT click on open & "save as" after the fact.
- If you have trouble opening the file once the file is downloaded, remember that you may need to select "enable macros" (see guidance document, above).
- If the file opens, but you do not see contents when you first open the file, try going to "view" on the menu toolbar and select "full screen."
